

How to Embed an Ensemble Video using Mashups

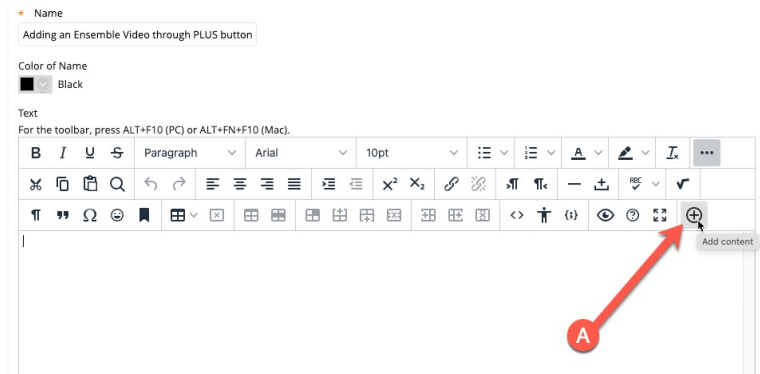

This tutorial demonstrates embedding video from Ensemble using Blackboard Mashups.

Step	Screen Shot
<p>First, log into Ensemble Video in the same browser you are using for Blackboard. To access Ensemble go: https://cunysps.ensemblevideo.com/</p> <p>If you have not yet claimed your account, please complete this form.</p> <p>Your login details are issued by SPS Help Desk. If you're having trouble logging in, please email helpdesk@sps.cuny.edu</p>	
<p>After logging into Ensemble, in the same browser, navigate to the area in Blackboard where you want to add your video.</p>	
<p>Videos in Ensemble can be added in two ways.</p> <p>1) Click on "Build Content" on a content page and click on "Ensemble Video" in the Mashups. (this will add a new item on your page)</p> <p>or</p>	

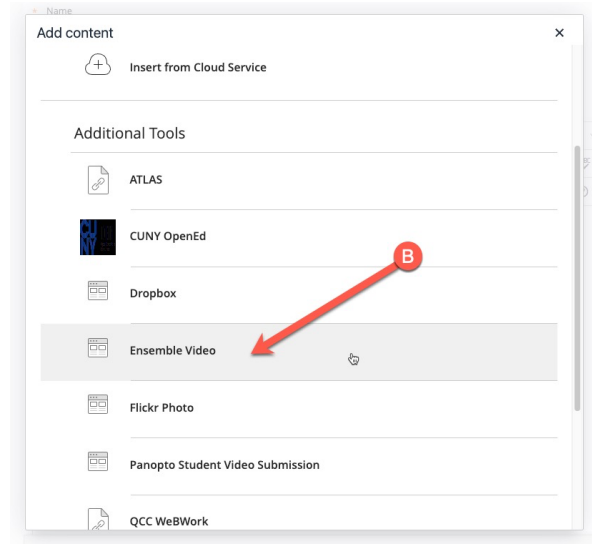

Step	Screen Shot
------	-------------

2) Add a video inside the Content Editor.

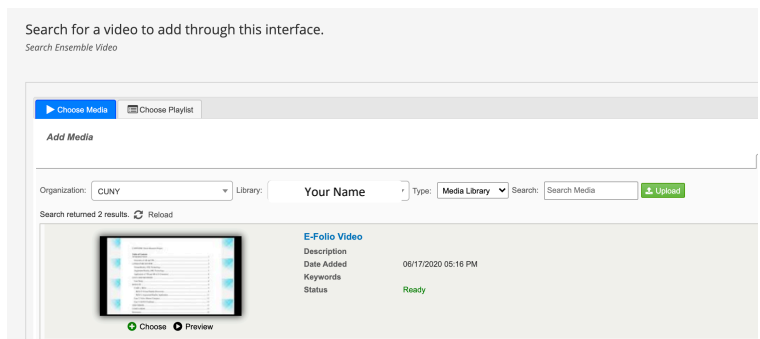

A. Click the Plus button to add content.

B. Scroll down the following dialog box until you find "Ensemble Video"

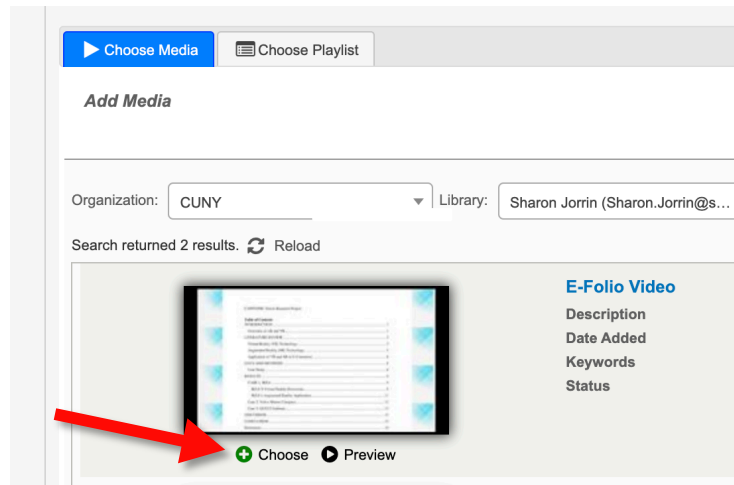

Either method above will bring you to the video selection screen with a list of all the videos you have in Ensemble. Locate the video you would like to embed in your course.

Step

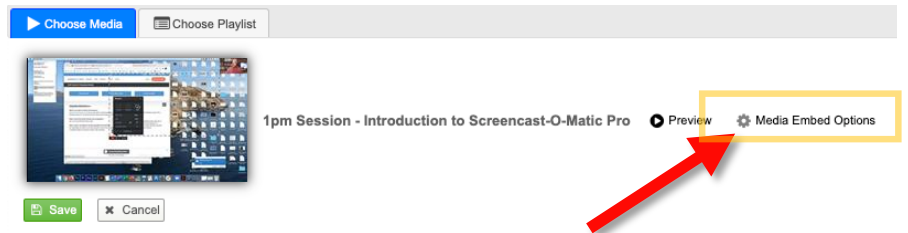

Screen Shot

Click on the “Choose” button below the video you’d like to embed.

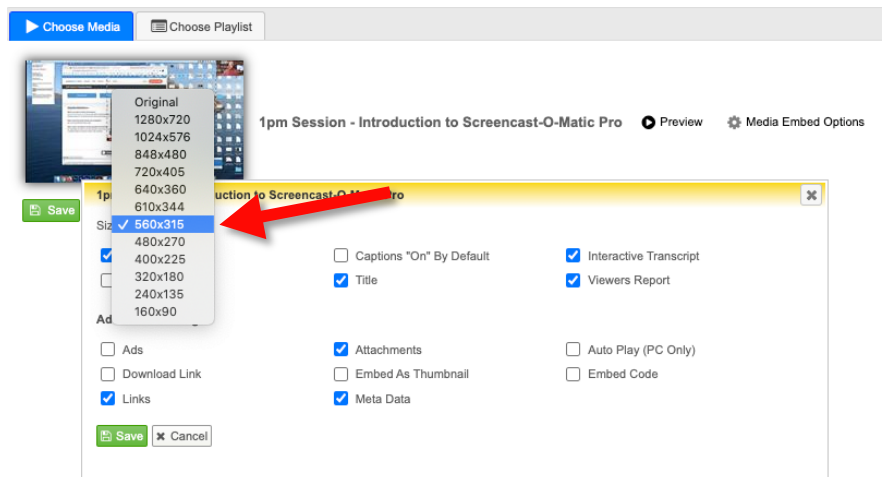

Before you save the video to your course, we highly recommend changing the “Media Embed Options” to reduce the thumbnail size of the video.

Click on “Media Embed Options.”

In the “Size” pull down menu, we recommend changing the size to 560x315.

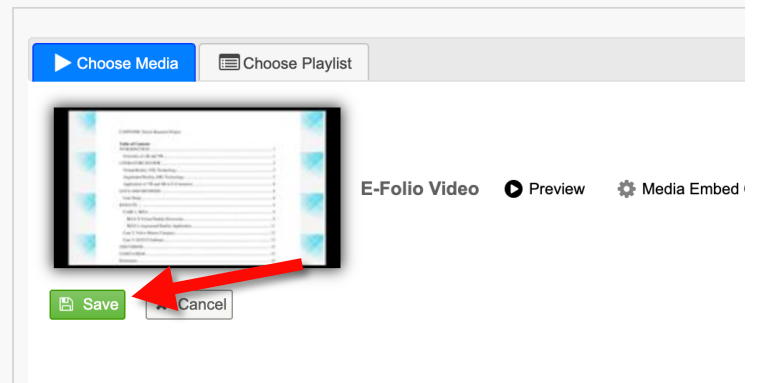

Step

Screen Shot

Once you've adjusted the size, click "Save" beneath the video.

Search for a video to add through this interface.

Search Ensemble Video

If you used the text editor to add this video, be sure to **click submit** when finished.

If you used the "Build Content" menu, after you clicking save above will bring you back to the course page.
